REVERSE COLLAR ARCH

Skipper 34NC is the first Skipper boat with reverse collar arch and its highest point is in the middle of the vessel. Nowadays this arch is a trademark for Skipper boats, as all models have the same style.

Skipper 34NC is the first Greek boat and the second worldwide, which has been awarded with the honorary title of the "Red dot honorable mentioned".

This unique creation by BSK MARINE impressed the 41 experienced design professionals and journalists from around the world with her revolutionary design and won a place in the Red dot family.

HULL DESIGN

Skipper 34NC is a very fast power boat because of her innovative hull design, with 4 steps which produce an air bubble film between the hull and water.

High speed without the need of huge engines and low fuel consumption are the two strongest characteristics of the hull
